

BHARGAVI

SUMMARY

Results-oriented engineering student with a proven track record of optimizing project outcomes. Skilled in strategic project management and team collaboration. Seeking opportunities to leverage technical expertise and contribute to engineering excellence.

PROJECTS

Fake News Detection

- Developed a Fake News Detection project using machine learning techniques to classify news as real or fake.
- Explored Logistic Regression, Random Forest, and Decision Tree techniques to enhance detection accuracy.

Number Plate Detection Using DIP

- Designed a number plate detection system using Digital Image Processing techniques for vehicle identification.
- Used image preprocessing and character recognition to extract license plate details.

Synthetic Data Generation

- Developed a project to generate artificial datasets for machine learning and testing.
- Focused on addressing data scarcity while preserving privacy and statistical properties.

Responsive Portfolio Website

- Built a responsive personal portfolio using HTML, CSS, and JavaScript.
- Showcased projects, skills, and contact information with a mobile-friendly design.

SKILLS

Programming Languages: Python, C, Java

Web Technologies: HTML, CSS, JavaScript

Tools: Visual Studio Code, Git, GitHub

EDUCATION

Ballari Institute of Technology and Management (BITM), Ballari

B.Tech in Data Science

2025 – Present

CGPA: 9.40 (up to Semester II)

Satyam PU College

Pre-University Course (PUC)

St. Johns High School

SSLC – Andhra Pradesh State Board

LANGUAGES

English, Telugu, Kannada
